## Summary

Passionate and dedicated student with a strong foundation in web development and AI/ML fundamentals. Proficient in JavaScript, HTML, CSS, with basic knowledge of Python and excellent English communication skills. Quick to learn and motivated to continuously expand technical expertise. Currently pursuing a diploma in Artificial Intelligence and Machine Learning.

## Education

### Rajarambapu Institute of Technology

Diploma in Artificial Intelligence and Machine Learning

2024 - 2028

### Expected Graduation: 2030

- Developed foundational skills in AI/ML, web development, and programming.- Built projects in JavaScript, HTML, and CSS as part of coursework.

2023 - Present

## Personal Projects

### Dead Pixel Test Website

Created a web application to help users test screen pixels, utilizing HTML, CSS, and JavaScript for a smooth, user-friendly experience.

### Guess the Number Game:

Developed an interactive game where the player guesses a number generated by the computer. Implemented logic in JavaScript to compare player input with the computer's number, providing feedback on each guess. Enhanced understanding of JavaScript functions, loops, and conditional statements, and improved user experience through simple UI design.

### Coursework Projects

**Interactive Web Elements with JavaScript:** Created various interactive components, like forms and animations, as part of coursework, deepening JavaScript knowledge and strengthening problem-solving skills.

## Skills

Programming Languages: JavaScript, HTML, CSS, Python (basic knowledge) • Web Development: Interactive and responsive design • Problem Solving: Strong analytical skills • Communication: Proficient in English • Quick Learner: Adapts quickly to new technologies • AI/ML Fundamentals: Introductory knowledge from AIML studies

## Languages

English Proficient ●●●●●

Hindi Proficient ●●●●●

German Beginner ●●●●●

## Strengths

### Quick Learner

Adapts quickly to new concepts and technologies, allowing for continuous skill development.

### Attention to Detail

Thorough in work and projects, ensuring high quality and minimizing errors.

### Analytical Skills

Strong problem-solving skills that help in breaking down complex problems, both in technical tasks and everyday situations.

### Collaboration

Works well with others, open to feedback, and enjoys learning from peers and mentors.

### Time Management:

Manages tasks and deadlines effectively, balancing academic responsibilities with personal development.

### Curiosity and Passion for Learning:

Genuinely interested in learning about new topics and broadening knowledge beyond coding, including AI/ML, general science, and problem-solving.
